IMPROVEMENTS

Form Date: March, 2006

5,

Do you know if any fill material has been placed on the property in question? If yes, please explain:

-120-

חווג טט בנ	The No. 3000020333
	PROVEMENTS ARE: JCTURES PLACED ON THE LAND THAT, NOT BE REMOVED WITHOUT THE LAND. EXAMPLES OF SUCH STRUCTURES INCLUDE PILINGS, DOLPHINS, PIERS, WHARVES, ORTED BUILDINGS, STRUCTURES BUILT ON FILL OR CONCRETE FOUNDATIONS, BURIED PIPELINES AND SUPPORT STRUCTURES FOR BRIDGES.
What ph	ysical improvements currently exist on the site? (Photos may be required.)
	are physical improvements currently on the site, who owns them?
If there	are physical improvements currently on the site; describe their condition:
Which	if any, of the existing physical improvements will be removed, remodeled, or reconstructed?
Descrit	re any physical improvements that the applicant is proposing to construct on the site.
Has an	y fill material been placed on the site? If Yes, please describe:
ase include	L GOVERNMENT REGULATORY PERMITS AND REQUIRE SAME OF THESE PERMITS. TON. YOUR PROJECT MAY REQUIRE SOME OR ALL OF THESE PERMITS. the following permit applications, permits, or waivers with the application: Aquatic Resource Permit Application) me form is used to apply for all of the following individual permits:
1.	Section 10 Permit (Required by the US Army Corps of Engineers for any work in or affecting navigable waters, c.g., floats, docks, piers, dredging, pilings, bridges, overhead power lines.)
2.	Shoreline Substantial Development, Conditional Use, Variance Permit or Exemption (Issued by Local Government, and is required for work or activity in the 100 year floodplain, or within 200 feet of the Ordinary High Water mark of certain waters; and which included any one of the following: dumping, drilling, dredging, filing, placement or alteration of attractures or any activity which substantially interferes with normal public use of the waters.)
3.	Hydraulic Project Approval (Required by the Department of Fish and Wildlife if the project includes work that will use, divert, obstruct, or change the natural flow or bed of any fresh or salt water of the state.)
4.	Section 404 Permit (Required by the US Army Corps of Engineers if your project will discharge or excavate any dredged or fill material waterward of the Ordinary High Water mark or the Mean Higher High Tide Line in tidal areas.)
5.	Section 401 Water Quality Certification (Required by the Department of Ecology if a Section 404 permit is required.)
	tional Pollutant Discharge Elimination System Permit united by the Department of Ecology under delegated authority from the Federal Environmental Protection Agency for project include the discharge of fluid on or into surface water.
CERT L COLAR	Environmental Policy Act) Checklist and Environmental Assessments

When you submit a permit application to any agency, if the project is not exempt, the lead agency will ask you to fill out an environmental checklist. Based on checklist answers and the reviewers knowledge of the project site, agency personnel will determine the types of impacts the project may have on the environment. The agency assessments may be the following forms: Determination of Nonsignificance, Determination of Significance, scoping documents, draft or final Environmental Impact Statements (EIS) or others prepared for the purpose of compliance.

PROPERTY SURVEY

STATE OF WASHINGTON DEPARTMENT OF NATURAL RESOURCES REQUIREMENTS FOR RECORDS OF SURVEY FOR LEASES AND EASEMENTS

Records of Survey are required for easements and leases granted by the department for:

- County roads
- Highways
- Easements across high value lands
- Easements across transition lands
- Utilities
- Upland leases
- Communication sites Other grants as determined by the department based upon site specific considerations
- Drainage or irrigation easements
- Railroads
- Aquatic land uses: exemptions are provided for recreational docks and mooring buoys per RCW 79.105.430 and for those permits issued as a Right of Entry

The applicant is responsible for:

- All costs and work associated with creating, submitting, revising and recording the Record of Survey
- Submitting a preliminary Record of Survey for review and approval by the department prior to approval of the agreement.
- Recording the final Record of Survey with the county auditor's office.
- Submitting a digital copy in AutoCAD.DWG or DXF (drawing exchange format) of the final survey.
- Submitting two full size copies and one 8 1/2 X 11" copy and of the recorded survey including the auditor's recording information to the department

A Record of Survey must:

- Be produced by a licensed surveyor.
- Meet the requirements of Title 58 RCW and Chapter 332-130 WAC.
- Include the name of the applicant, the purpose of the easement or lease and the DNR easement or lease number. 3.
- Clearly show easement or lease boundaries with distances and directions of all boundary lines.
- Show the easement or lease area to an accuracy of (±) 0.5% of the total area or (±) 10 square feet, whichever is greater.
- (Not required for aquatic lands lease across the bed of Puget Sound or the Pacific Ocean) Indicate the acreage encompassed by the lease or easement within each quarter-quarter section or government lot.
- Show distances and directions from two or more controlling corners of a recorded subdivision, recorded survey or government survey (GLO) corners.
- 8. Be related by meridian and coordinate to the Washington Coordinate System NAD'83(1991) by closed ties to NGS Control monuments, or the extension thereof. The designation of the control stations used shall appear on the plat.
- Include a narrative legal description describing the servient estate (grantor's parcel) on the Record of Survey.
- 10. Show a detailed plan of improvements to be constructed or already existing on the easement or lease area. All improvements must be shown in sufficient detail to determine what they are used for and to ensure they are entirely within the easement area.
- 11. Show the location of any proposed utility.
- 12. (linear lease or easement) Show the lineal footage along the centerline.

Form Date: March, 2006

- 13. (linear lease or easement) Sho. ____ complete alignment information and width inc____ ag any necessary curve data.
- 14. (Easements or leases crossing a section line or state ownership boundary, not required for aquatic lands lease across the bed of Puget Sound or the Pacific Ocean) Provide ties to the centerline of an easement along the section or subdivision line from the nearest appropriate Public Land Survey System (PLSS) section corner, quarter section or subdivision corner, where the easement enters and leaves the section or state ownership.
- 15. (Easements or leases falling entirely within one section and not crossing a section line or state ownership boundary) Provide ties from both end points of the linear easement to PLSS corners or other subdivision corners shall be provided.
- 16. (A lease which encreaches on a previously leased site) Show the boundary for the senior lease in the vicinity of the proposed lease shall also be shown, together with ties between the two leases sufficient to determine the full extent of the encreachments.

Additional Requirements for Communication Site Leases

- 17. Show ties to the corners of previously monumented communication sites adjacent to, or in the immediate vicinity of the proposed communication site.
- 18. Show access to the site.
- 19. Mark the corners of the communication site, as described and granted, with substantial permanent magnetically locatable monuments. The monuments shall be in place and obviously marked on the ground after the construction of installations and improvements.
- 20. Show the center of any communication site tower by Washington Plane Coordinates, NAD83 (1991), or latitude and longitude having an accuracy of and showing 3 decimals of a second.
- 21. On all communication sites where towers or beam paths are shown, an elevation is required at the base of the tower.
- 22. Show the tower height, and the height of the antenna or microwave dish and any beam path used shall have the diameter and tilt thereof shown.
- 23. The elevation shall be derived from an established benchmark in the vicinity of the site, or an elevation designated by the Department of Natural Resources.

Additional Requirements for Aquatic Land Uses

- 24. The lease of aquatic lands is often subject to preference rights. Applicants and surveyors should carefully determine the direction, and show details of the proration of coves and irregular shoreline.
- 25. (lease sites which contain existing or proposed structures and improvements that are classified as a non water-dependent or a water oriented use as described within RCW 79.105.060 and WAC 332-30-106) Provide the square footage of each structure and improvement.

Additional Requirements for Aquatic Land Uses (cont.):

- 26. Where applicable, the survey of aquatic lands must show the location of the following lines for:
 - a. Tidal areas -Government meander line, the original and current locations of line of mean high tide, line of mean low tide, and line of extreme low tide. The survey must include the name of tidal bench mark(s) used or describe the alternate method employed for determining a Tidal Datum. Lease areas which contain tidelands and bedlands at a minimum must show the location of the line of extreme low tide crossing the lease area. Lease areas containing bedlands exclusively may be required to show the relationship to the line of extreme low tide and the -18 foot contour line only.
 - b. Lakes Government meander line, line of ordinary high water (original ordinary high water if the lake has experienced artificial raising or lowering of the water level), and line of ordinary low water (include source of data) and line of navigability if established.

- ter and line of ordinary low water (include sour ____ data) and line of navigability if established. Rivers - Line of ordinary his
- Lots and blocks of platted tide lands or shore lands, inner and outer harbor lines, waterway lines, street boundaries, any local d. construction limit lines, any dredge or fill areas, and easements of record within the lease site.
- All lines must be shown in sufficient detail to compute and show the area of each area of State-owned bedlands, tidelands, shore e, lands, harbor area, or waterways included within the proposed lease site.

Include any other data necessary for the complete understanding of the information shown on the survey. If, in the opinion of the department, such information is lacking, the survey may be rejected.

Record of Survey Revisions:

- 27. Any differences between the as-built road and the regulation plat must be reflected in a revised Record of Survey and recorded with the county by the applicant
- 28. When any portion of the completed improvements are located outside of the granted lease site, the as-built locations must be reflected in a revised Record of Survey and legal description. In this instance, a new application for an amended lease site may be required if the as-built location creates adverse impacts. In the case of linear leases across the bed lands of the sound or the ocean, an as-built Record of Survey and a revised legal description of the linear lease must be provided.

Survey Requirements updated July 2002.

All answers and statements are true and correct to the best of my knowledge.
